

Free Training in Technology for STUDENTS Who Learn Differently

UCC's Disability Support Service offers free of training sessions for second level students (and their parents).

This training is relevant to students who may struggle with school work due to:

- literacy difficulties
- low stamina/energy levels
- physical difficulties
- visual impairment
- being deaf/hard of hearing
- other specific learning difficulties

Please read through the training on offer below to determine which session best meets your needs or the needs of your student/s.

Booking is essential. If you wish to book places for student AND parent please remember to book two places.
